DETAILED ACTION

Specification

1. The substitute specification filed 11/15/2004 has not been entered because it does not conform to 37 CFR 1.125(b) and (c) because: no statement regarding no new matter and no marked up copy showing additions and deletions has been provided. However, no substitute specification is deemed necessary due to the cancellation of claims 4-7. Further, see below.
2. The disclosure is objected to because of the following informalities: The statement of page 2 is incorrect regarding "continuation in part" as applicant's petition was denied.

Appropriate correction is required.

Applicant may wish to simply state that "This application is related to"

Drawings

3. Applicant's statement regarding amended drawings is noted, but none are found in this application, nor are any needed due to the cancellation of claims 6-7.

Claim Rejections - 35 USC § 112

4. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

5. Claims 18-23 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 18 is confusing in mixing Statutory categories in product and method claims and in lacking antecedent to the terms of claim 14 if this claim was conceived as a dependent

Art Unit: 3612

claim which is regarded as incorrect. Since the details of claim 14 are not now deemed necessary to the allowability of claim 18, suggest deletion of the term "in claim 14".

Further as to claim 18, the order of sections m) and n) is illogical. How can the bra or halter be installed over the cover after it has been removed? Suggest renaming section "n)" as --m)-- and section "m)" as --n)-- and reversing their position so that the "applying a pulling force..." is the last step.

Allowable Subject Matter

6. Claims 14-17 are allowed.
7. Claims 18-23 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.

8. The following is a statement of reasons for the indication of allowable subject matter:

Upon reconsideration, the claimed usage of a static cling cover beneath a halter cover is deemed to be a patentable distinction as the prior art lacks a prima facie teaching of same.

9. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37

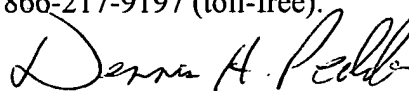

Art Unit: 3612

CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
